LOOKS FOR TRAIN; GOES INTO DITCH

Mrs. Van Hood of Carthage Loses Control of Machine While Watching Crossing

A. B. HOOD SEVERELY INJURED

Two Machines Collide at Corner of Main and Second Sunday Afternoon—Woman Hurt

While Mrs. Van Hood of Carthage was watching for a train in approaching the L. E. & W. crossing north of the city she lost control of the machine in which she and A. B. Hood, father of Van Hood, were riding and it crashed into a pole at the side of the road. The accident occurred Saturday evening.

Mrs. Hood escaped with a few cuts and bruises but Mr. Hood was hurt severely. His hands were badly cut by the flying glass from the wind shield and for a short time following the accident was unconscious. He was able to be taken to his home in Carthage. He is eighty-one years old and because of his advanced age, it was at first thought his injuries would prove serious, but he was able to be up and around today.

The machine was badly damaged, the body being smashed up considerably.

The automobiles of Curtha Waggoner and Claude Wilkinson of Knightstown, collided Sunday afternoon at the corner of Main and Second street, resulting in slight injury to Mrs. Wilkinson and considerable damage to both machines.

The Waggoner car was going west in Second street and the Wilkinson machine was heading north in Main street, from West Second. The Wilkinson machine was just rounding the traffic post when the two collided.

R. E. Shea of Knightstown was driving the Wilkinson machine. The fenders of both machines were bent and some spokes broken from the wheels. Mrs. Wilkinson was cut by flying glass, but was not badly hurt. According to witnesses, the accident was unavoidable and both machines were running slowly.

DROPS DEAD WHILE CARRYING A CASKET

George Hires of Near Gings is Stricken With Apoplexy While Acting as Pall Bearer Sunday

AT FUNERAL OF R. B. COOK

George Hires, 61 year old, a well known farmer of near Gings, dropped dead Sunday afternoon at the funeral of Robert B. Cook. Mr. Hires apparently was in his usual health yesterday and his death came as a great shock to his family and a large circle of friends. Death was caused by apoplexy. He was assisting in carrying the casket from the hearse to the grave when stricken.

Mr. Hires was born east of Connersville in June, 1855 and had been a resident of this county since he was twenty-one years old. He had lived near Gings for the past sixteen years. He is survived by his widow and five children, the Misses Ola, Myrtle and Frances and Charles, who live at home and Elmo Hires of near Glenwood.

The funeral services will be conducted Tuesday afternoon at the Fairview church, the cortege leaving the late residence at one o'clock. Burial will take place in the cemetery at Fairview.

3 HORSES IN FIRE SAVED

James Cassidy's Barn in Pearl Street Burns Early Sunday

A barn in South Pearl street, between First and Second streets, owned by James Cassidy, was partially destroyed by fire Sunday morning at one-fifteen o'clock. Three horses were in the barn, but all were rescued. One of the horses was owned by Charles Levi and the other two by Harry Pea. A quantity of grain and feed was destroyed. The origin of the fire is unknown. The roof was in flames when the department arrived and the blaze gave the firemen considerable trouble. The barn and contents were fully covered with insurance.

PREPARING FOR A WALKOUT IN 2 DAYS

Labor Leaders in New York Say 115 Unions With 180,000 Members Voted to Strike

MILK WAGON DRIVERS QUIT

(By United Press.)

New York, Sept. 25.—Labor leaders worked out details of their plans for the walkout of union workers which they confidently expect to take place next Wednesday.

The public meanwhile looks hopefully to the sessions of the state board of conciliation and arbitration starting tomorrow, at which an attempt will be made to adjust the differences between the traction company and the striking carmen.

One hundred and fifteen trade unions with about 180,000 members have already voted to stop work Wednesday in support of the carmen, Ernest Bohm, secretary of the Central Federated Union, announced.

Labor leaders today estimated 350,000 would walk out, explaining it is not their intention to bring out all union workers. The unions more directly connected with the city transportation are to answer the call.

Milk wagon drivers struck today and Organizer Cashell of their union declares that 6,000 will quit Wednesday if their demands are not met. The companies charge that strikers and strike sympathizers went through the streets intimidating drivers early today.

LONDONERS ARE FEELING SAFER

Believed Since Three German Aeroplanes Have Been Brought Down in as Many Weeks

SATURDAY'S RAID FAILURE

(By United Press.)

London, Sept. 25.—With three of Germany's biggest and latest types of German Zeppelins gone, brought down on English soil, within as many weeks, Britons today believed London is now more secure against air raids than ever before despite the fact that the last two raids were made with a greater number of aircraft than ever before used.

Military officials declare that the air defenses of London have stood the supreme test in repulsing the fleets of raiders which attacked the city on the night of September 2 and again Saturday night. The latest estimate puts the number of persons killed at 80. Over 110 were injured. Only three of the Zeppelins approached London for an attack and they were driven off.

MAYOR ISSUES PROCLAMATION

Directs Attention to Centennial Fire Prevention Day to be Observed October 9.

FIRE MARSHAL IS AT WORK

Seeks to Interest Every Agency in Celebration by Holding Special Programs

PROCLAMATION.

Offtimes in the humdrum of business and routine affairs we forget that a little care and caution used in certain instances would prevent a hardship later, and while the hardship to some would be of no great consequence, to others it would prove disastrous. While Rushville and Rush county are participating in the state's one hundredth birthday and well knowing the great advancement made in this period, it is fitting and proper that our attention be directed for at least one day upon the thought of tomorrow—that of conserving our material resources through prevention of loss by fire.

The public should be greatly interested in any movement that would tend to eliminate fire loss, as the public eventually is the loser from fire. It is commonly known that a majority of fires are caused through carelessness and can be prevented. Prevention is always better than a cure.

NOW, THEREFORE, I CLATA L. BEBOUT, as Mayor of the City of Rushville do hereby designate

Monday, the 9th Day of Oct., 1916

As Centennial Fire Prevention Day; and it is my earnest desire that it be fittingly observed. I would suggest that all property owners and tenants rid their premises of rubbish and other inflammable material; that hazardous conditions be reduced to a minimum. I also recommend that the public schools observe the day by holding proper exercises; that the coming generation may well know the meaning of fire prevention; and that all civic organizations realize the importance of the subject in order that all may reap the benefit of this doctrine.

In Witness Whereof, I have hereunto set my hand and caused to be fixed the seal of the City of Rushville, this 25th day of September, 1916.

(seal) CLATA L. BEBOUT, Mayor.

Mayor C. L. Bebout issued the proclamation setting aside Monday, October 9, as Centennial Fire Prevention Day, at the behest of the state fire marshal, who has requested mayors all over the state to issue such proclamations, and who is endeavoring to interest every person in Indiana in the special celebration. Governor Ralston has already designated October 9 as fire prevention day, in a special proclamation.

Each of more than 1,000 assistants of the State Fire Marshal scattered throughout Indiana is urging the people of his locality to observe the day by doing away with rubbish and other dangerous, inflammable conditions in the premises. Although the work of the Fire Marshal along these lines continues throughout the year the attention of the entire state is riveted only for one day on the problem.

It is the purpose of Centennial Fire Prevention Day to secure co-operation of civic associations, parents, teachers, children, business men, insurance societies and householders in taking steps which will materially reduce the number of fires caused through carelessness.

Special effort is being extended

VOTING ON THE QUEEN STARTS

Ballot Boxes are Placed in Drug Stores, Only Place Where Votes May be Cast

SCHOOLS TO PARTICIPATE

Several Trustees Promise Their Township Will Have Float—Baby Parade Meeting

Ballots to vote on the Centennial Queen who will be crowned during the Centennial, Home Coming and Fall Festival here were distributed among the business houses today and votes may be cast any time in the contest. Votes may be purchased at a fourth of a cent each, and many of the merchants will give them away, one with each cash purchase of twenty-five cents.

Votes may be cast only at drug stores. The sealed boxes to hold the votes were to be placed in the drug stores some time today and it is expected that a spirited contest will soon be aroused because here is fifty dollars in prizes involved.

A majority of the trustees at the court house Saturday afternoon agreed to see that their township was represented by a float in the Centennial parade on Friday, October 13. A fifty dollar loving cup, on which will be inscribed the name of the winning school, has been offered as the prize for the best float placed in the parade by the schools of any township or any building of the Rushville public schools.

A meeting of the committee on the baby and doll parade, which will be held Tuesday afternoon, October 10, together with others interested, was held in the court house Saturday afternoon and plans for the parade discussed. Another meeting will be held in the court house next Thursday afternoon at three o'clock and it is urgently requested that all mothers attend and hear of the plans for the parade.

"It is not so much the best decorated baby carriage, though there has been a prize offered for that," said a member of the committee today, "but what we want is to arouse the community spirit and get the mothers to take part. We want every mother in Rushville, or in Rush county for that matter, who can get here, to attend next Thursday afternoon and hear the plans for the parade."

Several unique costumes are reported to have been arranged by some Rushville mothers for the parade. It has been suggested that small boys who have freak outfits such as Indian suits and other make-ups of that nature participate in the parade.

The baby and doll parade has been a very rich success at several Centennial celebrations in Indiana already this year and there is no reason to believe that it can not be made a success here.

WHITSITT RETURNED HERE

(By United Press.)

Franklin, Ind., Sept. 25.—The Rev. W. M. Whitsitt was reappointed pastor of St. Paul's M. E. church at Rushville. This became known here today when the list of appointments at the Indiana conference were read.

COURT MARTIAL ORDERED

(By United Press.)

Washington, Sept. 25.—General Funston today wired the war department he had ordered court martial of a corporal and seven members of a patrol of Texas cavalry who crossed the Rio Grande into Mexico on Thursday without authority. Mexican soldiers fired on the patrol.

BANKER ASKS A RECEIVER

T. B. Millikan Sues Against Meat Shop Owner and Former Owner

Thomas B. Millikan, a Newcastle banker, filed suit today against Don M. Cassidy and Jesse L. Booth to foreclose a chattel mortgage, demanding \$670, and asking the court to appoint a receiver for the meat shop located at the corner of Second and Morgan streets. It is alleged that on Sept. 21, 1915 Booth gave his note to Cassidy for \$630 due in one year and bearing interest at the rate of six per cent. The complaint states that Cassidy sold the note to Millikan and then assigned him the mortgage. The foreclosure of the mortgage is asked and the plaintiff demands a receiver to look after the goods named in the mortgage.

TO BOOST FOR THE COUNTY CANDIDATES

Red Men of County Will Get Behind Miles S. Cox, Who Wants to be Keeper of Wampum

TO MEET TOMORROW NIGHT

The Red Men of the county will gather here tomorrow night in a general get-together meeting for the purpose of creating interest in the great council meeting scheduled for Indianapolis October 17 and 18. Miles S. Cox of the local lodge is a candidate for the office of great wampum and it is expected that plans will be devised at the meeting Tuesday night to boost his candidacy.

It is likely that members from this county will go to Indianapolis in a special car. While Mr. Cox has some opposition, the lodges in this county are going to get behind him and are confident that he can be elected. The meeting tomorrow night is scheduled for 7:30 o'clock and according to reports from over the county all of the lodges will be represented.

HORSE PLUNGES DOWN EMBANKMENT

Frightens at Big 4 Train on Track That Parallels Road and Dashes in Front of Engine

MRS. J. ALDRIDGE THROWN OUT

Mrs. James Aldridge, living northwest of Milroy, had a narrow escape from death or serious injury, Saturday evening in a runaway as she was driving into Milroy on the north road leading to the town, the one that parallels the Big Four railway for a distance. An approaching train in the rear of the horse caused the animal to run away.

The buggy was upset and Mrs. Aldridge thrown out, but she escaped with a few bruises. The horse continued his wild dash and at the point where the road crosses the tracks the animal, instead of keeping the road, started south along the track. When within a few feet of the big trestle the horse turned to one side and plunged down the steep embankment. For a time it appeared as though the train would run down the buggy containing Mrs. Aldridge, but it upset just before reaching the track. The horse was badly injured.

BEGINS 3-DAY TOUR OF OHIO

Republican Nominee Hughes Starts Oratorical Marathon With Speech at Dayton

HURTS VOICE IN INDIANA

Large Delegation From Here Attends Monster Rally in Indianapolis Saturday Night

(By United Press.)

Dayton, O., Sept. 25.—Republican Candidate Hughes brought his policies into the Buckeye state today, beginning a three-day oratorical marathon.

Because his throat is still inflamed and his vocal chords frayed by his long distance speaking in Indiana, Mrs. Hughes and the nominee's physician forbade any outdoor speeches here.

Hughes began the second week of his campaign tour in splendid physical and mental shape, but very much worn out in voice.

So far as punch is concerned, the former governor has come back to his highest efficiency as campaigner right now. But the super human effort he made at stumping in Indiana left his voice in such shape that it is an effort for him to speak.

Approximately a hundred Republicans from Rush county attended the rally in Indianapolis Saturday when Republican Candidate Hughes spoke. Most of the Republicans from here participated in the parade, which, in the opinion of Indianapolis people, was the biggest political demonstration in a generation.

It required an hour and thirty-five minutes for the parade to pass a given point. It was long after Hughes had concluded his speech in Tomlinson hall that the last of the parade drew up at the hall.

Arrangements had been made for an outdoor meeting in the court house yard across from Tomlinson hall and James E. Watson was selected to make the principal address, but try as he might, he could not go against the booming of cannon and the noise of brass bands and drum corps, not to mention the shouts of thousands of people. Other speakers, too, tried to make themselves heard, but found it impossible. Mr. Hughes was also to make a speech to the crowd in the court house yard, but his voice was badly worn and he merely appeared and begged to be excused, after his Tomlinson hall speech.

Mr. and Mrs. Hughes spent a quiet day at the home of Charles W. Fairbanks Sunday.

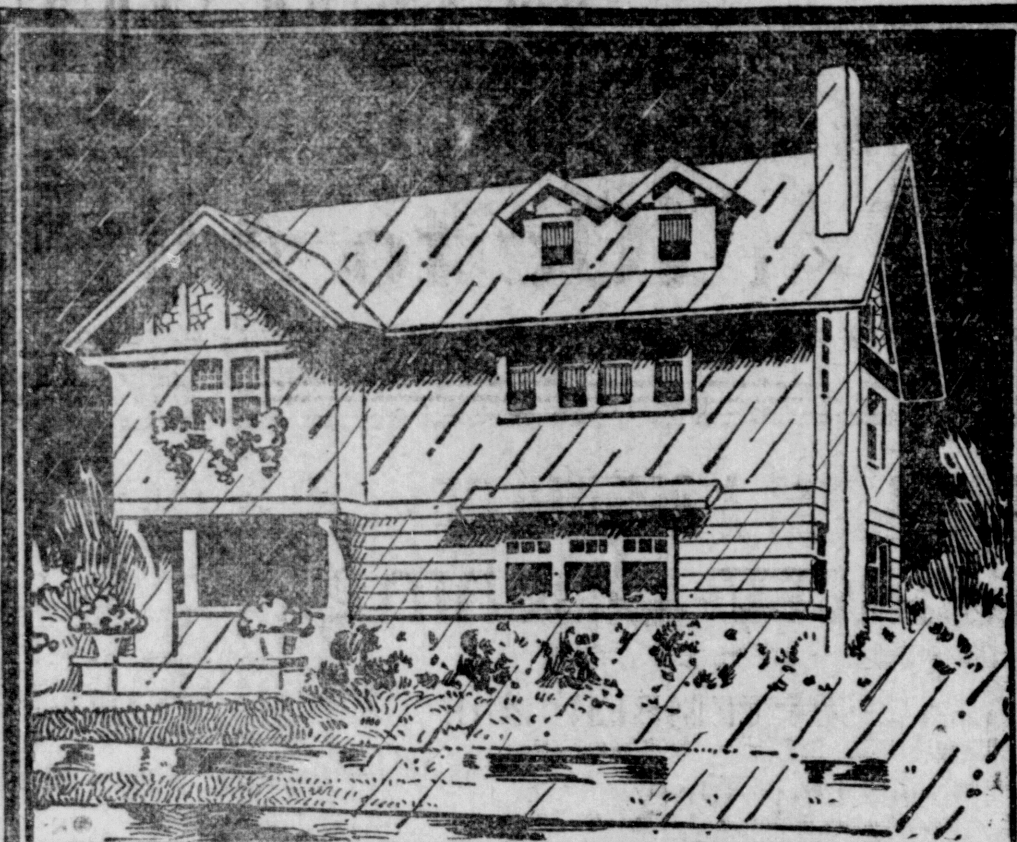

WILSON IS GIVEN MONSTER OVATION

President Urges Approval by Farmers and Shippers of His Business Legislation

HE SPEAKS AT BALTIMORE

The Lyric Theater, Baltimore, Sept. 25.—President Wilson today addressed to the farmers and shippers of the country an appeal for approval of the business legislation passed during his term of office. At a meeting held under the auspices of the National Grain Dealers association, he spoke to a crowd of 3,000 people who packed the Lyric.

From the time the president arrived here at 1:36 p. m. he was accorded a tremendous reception. The streets were lined with people and long before the hour arrived for his appearance, thousands were in front of the Lyric.

JACOB GAHIMER EXPIRES

Orange Township Farmer's Funeral is Held This Morning

Jacob Gahimer, 81 years old, a well known farmer of Orange township, died Saturday following an illness of several months from a complication of diseases, including dropsy and heart trouble. He had been a resident of Orange township all his life and was a wealthy land owner. He is survived by his widow and six children, Jacob and Louis Gahimer, Mrs. Jacob Coers, Mrs. August Coers, Mrs. Edward Rader and Miss Mary Gahimer. The funeral services were conducted this morning in the German church in Union township, Shelby county, by the Rev. S. Caldemeyer, and burial took place in the cemetery there.

PLENTY OF REASONS

Fort Wayne, Ind., Sept. 25.—Too much "girling," too much time spent around pool rooms; dressing to please the adolescent female fancy; rich food and petting by doting mammas—those elements have combined to sap the red blood from the high school boys at Ft. Wayne with the result that the high school has no athletic team, according to Louis C. Ward, principal of the school.

"A diet of bacon and corn meal, less loafing with girls and pool rooms and interest in red-blooded pursuits, and athletics will pick up," he said.

WEARING "PANTS" IN EVANSVILLE.

Evansville, Ind., Sept. 25.—Evansville women are wearing trousers and the new adaptation is proving popular. No, they aren't wearing them on the street yet—only about the house and garden. They are overalls, made of cloth a bit lighter in shade than that for the men, and with a delicate dark stripe that pleases the gentler sex. And they're so comfy. One can get about so well in them. Stores here are now handling "ladies size" overalls and are selling lots of them.

HIS JOB TO SCARE GERMANS.

London, Sept. 21.—Investigation today of the German charge that "black savages" were aiding the English in fighting on the Western front disclosed that one very large black, fierce looking "savage," a British citizen hailing from London, was instructed to put his woolly head over the parapet twenty times a day in twenty different places for twenty days, yelling on each occasion "Hoola Boola," or something like that. Naturally the Germans thought they were opposing a horde of savages. And all the time the horde was scared stiff that he was going to get his head shot off.

TODAY'S HOOSIER ODDITY

(By United Press.)
Indianapolis, Ind., Sept. 25.—Men in Indianapolis have no right to repair or do plumbing in their own homes. Under the new contract with the Indianapolis Water Company no one may meddle with the plumbing but a regular plumber, licensed both by the city and the company. Republicans in the city council are attacking as unfair this provision of a contract made during the administration of Mayor Bell, democrat.

WORLD'S EXPORT RECORD

(By United Press.)
Washington, Sept. 25.—A world's record for exports were set by the country during the month of August the department of commerce announced today. Exports totaled \$510,000,000. This is \$35,000,000 more than the previous record established in May.

Imports decreased \$47,000,000 under June when a high record was set. August was the first month in which the United States has sent exports totalling more than a half a billion.

Another Reunion

The voters of Illinois in the primary election last Wednesday added their state to the rapidly growing list of those which have shown by actual voting a complete reunion of the Republican and Progressive forces. The vote for Republican candidates, both in Chicago and down state, was by far the most impressive feature of the election.

In the City of Chicago the Republican vote was practically what it was before the 1912 break in the party ranks, while the total Democratic vote fell off nearly 40,000. The 1912 Democratic total vote was 158,853 while that of last Wednesday was 119,422. The down state vote made a similar showing.

The totals were so impressively favorable to the Republican cause this year that even the Chicago Examiner, a Democratic paper and champion of Gov. Dunne's renomination on the Democratic ticket, remarked:

“Political statisticians hold the figures to indicate that the progressives again are sitting in the game with the Republicans.”

Col. Frank B. Lowden, the Republican nominee for governor, won the nomination in such emphatic fashion that his opponents in the

primary were among the very first to send him congratulations and assure him of their warm support in the campaign for election. Illinois Republicans never were in better shape than now for a clean cut campaign for election of the state and national tickets. Not a vestige of factional difference is left to mar the campaign.

On the other hand, the Democrats had an eleventh-hour effort to made to defeat the renomination of Gov. Dunne, a fight that has left considerable bitterness in the state ranks of the party. As a result it is being predicted in political circles through the state that Illinois will return a Republican plurality for the national and state tickets in November of 200,000.

Primary election returns from Colorado and Washington show that practically the entire Progressive vote in those western states were cast last Tuesday for the regular Republican candidates.

The returns from Michigan, Ohio, Wisconsin, and other middle-western states recently showed the Progressives voting almost solidly with the Republicans. The same thing was shown in the Illinois primary of Wednesday.

That the Republican party is reunited all over the country is shown conclusively by these returns. Furthermore, in almost every state record votes are being cast. With a harmonized party whose members are going to the polls in record numbers to cast their votes, Republicans can read only certain victory in the coming November election.

It was but a comparatively few years ago when the whole country was talking of the “billion dollar congress.” Now a “two billion dollar congress” has just closed and but little is heard of the enormous expenditures. From this it would seem that money is so plentiful in the United States that even the colossal sum of two billion dollars is viewed with indifference.

We haven't a shadow of a doubt but that the agreement ultimately reached between the American and Mexican commissioners will go into history as just another “scrap of paper.”

The average man never realizes the true worth of a good wife until he gets into it clear up to his neck.

POPULAR WITH OFFICERS
El Paso, Tex., Sept. 23.—When the Kentucky militia regiments arrived at the border nearly every officer carried a “swagger stick” a short straight wooden wand as is affected by officers of the British army. Regular army officers were disposed to smile and regard the fashion as a “militia affectation.” But it added a touch of the picturesque to the officers and Colonel Allan Gullion of the Kentucky, National guard, who is responsible for the innovation, defends it.

“The swagger stick not only adds the distinctive touch to the officer, which our army lacks, but it aids in maintaining a military bearing. When carrying some object in the hand, unconsciously the officer will throw his shoulders back and walk erect.” Half of the officers on the border now have adopted the “swagger stick.”

ESTATE HOT STORM The Stove with a Little Furnace In It

Competent authorities tell us that in the ordinary heating stove 50 to 75 per cent of all heat generated from the coal goes up the chimney—a dead waste of heat and of money. For years designers have been trying to lessen this waste and the result of their labors is shown in the ESTATE HOT STORM—not a stove in the common sense of the word, but a COMBINATION STOVE AND FURNACE—two heating systems in one. Costs very little more than the ordinary stove to buy, no more to install and much less to operate than the ordinary furnace.

Come and see how the “Little Furnace” blocks up rushing heat and sends it pouring out the top INTO the room—not up the chimney. See the JOINTLESS LEG BOTTOM and BASE—as good a fire keeper in twenty years as it is today. The low bottom, from two to three inches closer to the floor than any other make. Absolute cleanliness, everything in the fuel consumed except the rock and slate in the coal. The indestructible HOT BLAST system—no rings to burn out or fill with ashes.

We can conscientiously guarantee to produce more heat for less money than any soft coal heater in the world.

MAYOR ISSUES PROCLAMATION

Continued from Page 1.
by the State Superintendent of Public Instruction to secure state-wide observance of the day in the schools of Indiana. In a letter addressed to the school superintendents, State Superintendent Great-house urges that exercises be held in all schools on October 9th, in which the subject of fire prevention will be studied and recommends that all English classes make fire prevention purposes and methods the subject of their compositions and themes during the week beginning October 9th.

The State of Indiana has originated a method of study of fire prevention in the schools which has been copied by fire marshals and fire prevention experts in all parts of the United States. This system involves requiring each school pupil to make an inspection of his own home with a view to discovering all dangerous conditions which may cause fires. Each student makes a written report of his inspection and returns the result to the school authorities. A number of school principals have gathered interesting statistics on their cities by tabulating the result of the several inspections. Blanks for the purpose of making these inspections are furnished by the State Fire Marshal for distribution to the school children, free of charge on request from school authorities.

An effort is being made to have public meetings held on October 9th in all communities, at which the subject of fire prevention will be discussed and measures to protect property from fire will be taken up for settlement. Many requests have been received by the Fire Marshal for suggestions as to what should constitute programs for school exercises, business and commercial meetings. By this method it is expected that the State of Indiana will in all its sections give attention on October 9th to the fire prevention problem and that carefulness resulting from that attention will have a material effect in reducing the Indiana fire loss in coming years.

Examine Your TEETH Tonight

—after you clean them.

You will find, in all probability, an accumulation of tartar on the enamel and bits of food deposit hiding between the crevices. YOUR DENTIFRICE does not FULLY CLEAN! Loss of teeth is caused usually by one of two conditions—Pyorrhea or decay, both of which develop, as a rule, only in the mouth where germ-laden tartar is present.

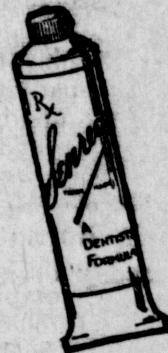

SENRECO, the recently discovered formula of a dental specialist, is two-fold in its action. First, it REALLY CLEANS, embodying specially prepared, soluble granules unusually effective in cleaning away food deposits. Second, it is particularly destructive to the germ of Pyorrhea. Yet it is perfectly safe, containing neither injurious chemicals nor hard grit.

Avoid Pyorrhea and decay. Get Senreco from your dealer today. In large tubes, 25c. Send 4c to Senreco, 304 Walnut Street, Cincinnati, Ohio, for liberal-sized trial package.

BARBER-DUNN

A very impressive wedding ceremony was preformed Saturday afternoon, at the home of Mr. and Mrs. D. D. Barber of Andersonville, when their daughter, Miss Amory Barber, became the bride of Laverne Dunn, son of Mr. and Mrs. George Dunn. The ceremony was performed at 3:30 o'clock by the Rev. Moody Edwards who used the ring ceremony. The bride was accompanied by her sister as maid of honor, Miss Beryl Barber, who wore a filmy gown of pale blue with a lace and net overdrape. The Mendelssohn wedding march was played by Miss Ruby Stewart who was attractively gowned in a light blue silk, made partially with georgette crepe. The bride never looked lovelier. Her wedding dress was a silk net over taffeta, beaded with beautiful ornaments. The bridegroom was accompanied by the best man, his cousin, Alden Griner.

The color scheme of the wedding, pink and white, was carried out in the decorations. A profusion of flowers gave a lovely setting for the scene. An informal reception followed the ceremony. Refreshments carrying out the pink and white suggestion were served to the forty or more guests.

Yesterday in honor of the bridal couple, Mr. and Mrs. George Dunn, the parents of the bridegroom, entertained at their country home. The young couple will go to housekeeping on a farm near Andersonville. The bride was formerly a teacher in Franklin county and is a very capable and attractive young lady.

INDIVIDUAL TOUCH IS EASY

At this time of the year many attractive articles of dress are being offered at bargain prices. One hesitates to buy because the table on which they are displayed holds so many models of the same description. There is something unpleasant about meeting your frock or blouse on another person as you walk along the street or when you attend a social function. However, there is a way to take advantage of the reduced prices and yet have something a little different from the rest. This way refers to hand embroidery.

If you are original you can use leftover threads and silks and embroider very attractive designs on the collar, cuffs, pockets or any available place. If you cannot originate you can surely find the type of design you want in any needlework book or newspaper printing embroider designs.

Now that applique work is so much in vogue, one has another method of adding an additional touch to a ready made frock. Odd designs cut out from contrasting colored material can be neatly attached to many of the bought summer frocks and thus transform their appearance.

A marriage license was issued Saturday afternoon to Harry N. Snyder and Ruth Marie Parish, both of Carthage.

Amusements

The Gem offers the feature picture "Undine" for the program tonight. How Undine is accepted by a fisherman and his wife for their daughter who has been stolen by the mermaids, in revenge, because the fisherman robs the sea of its finny inhabitants; how she is loved and married by the brave knight Hildebrand, taken to his castle, and then, her mission on earth fulfilled, she is ordered back to the fairy realm whence she came—that in brief is the story of "Undine." It is a massive and spectacular play featuring Ida Schnall.

A play as sweet, as powerful and as heart interesting as "Way Down East" will be shown at the Princess tonight when "Tangled Fates," the latest World film will be shown. Alice Brady, who rendered such excellent dramatic interpretations in "As Ye Sow," "The Ballet Girl" and others, plays the leading part. Tomorrow the three act drama "The Dupe" will be shown in which Frank Mayo and Lillian West are featured.

THOUSANDS PLEAD BOY'S LIFE BE SAVED

Little Willie Zimmer, Age 12, Will Not Have to Stand Trial for Killing His Mother

TO BE GIVEN CHANCE AGAIN

New Orleans, Sept. 25.—Little Willie Zimmer, age 12 years, who shot his mother to death here will not be tried for murder. The district attorney said today the boy would not be tried for life. Pleas of thousands of youngsters and club women in nearly every state in the union has had its effect and Willie will be given a chance to begin life all over again.

Willie killed his mother because she tried to beat him. On the day of the killing he had been with his father. The father thrashed him for some trivial offense, so Willie went to his mother for comfort. But Mrs. Zimmer was in no comforting mood. Willie offended her and when she raised a stick at him, he shot her dead.

WOULD GO AWAY WITH SECRECY

Senator Paul Hustung of Wisconsin Sees no Reason For Keeping Income Tax Records Dark.

THINKS PUBLIC SHOULD KNOW

Goes on Theory That Every Tax Payer Has Right to Know What Every Other Pays

BY PAUL O. HUSTING.

(Written for United Press.)

In my judgment, no valid argument has ever yet been advanced why income tax records should not be published or at least open to the public for inspection.

If certain individuals evade or escape, in whole or in part, their proper tax, just to that extent, the amount so evaded has to be made good by those who make full and honest returns of their property. Every taxpayer has a right to know what every other taxpayer pays.

Men will dodge taxes. I do not think this due so much to inherent dishonesty as to inefficient administration of the tax laws.

I believe most men are willing to pay their taxes if assured that their fellow citizens pay theirs.

Because of imperfect, loose and frequently dishonest assessment to engage in a practice acquiesced in if not sanctioned by the authorities, it is not unusual for men to, to dodge their taxes.

Often it is considered clever for men to get the best of their neighbors in concealing property. Men boast about it and a sort of rivalry has sprung up between them on the point.

They do not stop to think that they are cheating their fellow citizens who do pay their just taxes. They do not stop to think that they are "welchers" or "spongers" on society. Some of these men who ordinarily would spurn the idea of sponging off their fellows or cheating their partners.

Some one has estimated that this government loses annually \$300,000,000 by income tax dodging. This may be a very high estimate. I do not know. I do know that millions of dollars of properly payable

taxes under the income tax law are lost to the United States each year because of false returns. A corps of inspectors uncovering these tax evasions have added millions to the tax receipts.

The ban of secrecy should be removed and all these records exposed to the light of day. Men will not evade their taxes if they fear detection. The loudest protest against publicity naturally comes from those liable to pay the heaviest tax. Not daring to attack the income tax principle they loudly inveigh against intrusion into their private affairs.

When such income constitutes the basis upon which their just tax is computed then their tax return becomes a public document. If it should be shown that the injury to private business by reason of publicity incidental to the assessment and collection of the income tax is out of all proportion to the benefits derived from that sort of taxation, the tax should be abolished, but so long as it is in force all steps necessary to the proper administration of that income tax law should be taken, even though in exceptional cases it may cause trouble or inconvenience. Publicity is the most efficient hand-aid of such administration.

LOOKS FOR TRAIN, GOES INTO DITCH

Mrs. Van Hood of Carthage Loses Control of Machine While Watching Crossing

A. B. HOOD SEVERELY INJURED

Two Machines Collide at Corner of Main and Second Sunday Afternoon—Woman Hurt

While Mrs. Van Hood of Carthage was watching for a train in approaching the L. E. & W. crossing north of the city she lost control of the machine in which she and A. B. Hood, father of Van Hood, were riding and it crashed into a pole at the side of the road. The accident occurred Saturday evening.

Mrs. Hood escaped with a few cuts and bruises but Mr. Hood was hurt severely. His hands were badly cut by the flying glass from the wind shield and for a short time following the accident was unconscious. He was able to be taken to his home in Carthage. He is eighty-one years old and because of his advanced age, it was at first thought his injuries would prove serious, but he was able to be up and around today.

The machine was badly damaged, the body being smashed up considerably.

The automobiles of Curtha Waggoner and Claude Wilkinson of Knightstown, collided Sunday afternoon at the corner of Main and Second street, resulting in slight injury to Mrs. Wilkinson and considerable damage to both machines.

The Waggoner car was going west in Second street and the Wilkinson machine was heading north in Main street; from West Second. The Wilkinson machine was just rounding the traffic post when the two collided.

R. E. Shea of Knightstown was driving the Wilkinson machine. The fenders of both machines were bent and some spokes broken from the wheels. Mrs. Wilkinson was cut by flying glass, but was not badly hurt. According to witnesses, the accident was unavoidable and both machines were running slowly.

DROPS DEAD WHILE CARRYING A CASKET

George Hires of Near Gings Is Stricken With Apoplexy While Acting as Pall Bearer Sunday

AT FUNERAL OF R. B. COOK

George Hires, 61 year old, a well known farmer of near Gings, dropped dead Sunday afternoon at the funeral of Robert B. Cook. Mr. Hires apparently was in his usual health yesterday and his death came as a great shock to his family and a large circle of friends. Death was caused by apoplexy. He was assisting in carrying the casket from the hearse to the grave when stricken.

Mr. Hires was born east of Connersville in June, 1855 and had been a resident of this county since he was twenty-one years old. He had lived near Gings for the past sixteen years. He is survived by his widow and five children, the Misses Ola, Myrtle and Frances and Charles, who live at home and Elmo Hires of near Glenwood.

The funeral services will be conducted Tuesday afternoon at the Fairview church, the cortege leaving the late residence at one o'clock. Burial will take place in the cemetery at Fairview.

3 HORSES IN FIRE SAVED

James Cassidy's Barn in Pearl Street Burns Early Sunday

A barn in South Pearl street, between First and Second streets, owned by James Cassidy, was partially destroyed by fire Sunday morning at one-fifteen o'clock. Three horses were in the barn, but all were rescued. One of the horses was owned by Charles Levi and the other two by Harry Pea. A quantity of grain and feed was destroyed. The origin of the fire is unknown. The roof was in flames when the department arrived and the blaze gave the firemen considerable trouble. The barn and contents were fully covered with insurance.

PREPARING FOR A WALKOUT IN 2 DAYS

Labor Leaders in New York Say 115 Unions With 180,000 Members Voted to Strike

MILK WAGON DRIVERS QUIT

(By United Press.)

New York, Sept. 25.—Labor leaders worked out details of their plans for the walkout of union workers which they confidently expect to take place next Wednesday.

The public meanwhile looks hopefully to the sessions of the state board of conciliation and arbitration starting tomorrow, at which an attempt will be made to adjust the differences between the traction company and the striking carmen.

One hundred and fifteen trade unions with about 180,000 members have already voted to stop work Wednesday in support of the carmen, Ernest Bohm, secretary of the Central Federated Union, announced.

Labor leaders today estimated 350,000 would walk out, explaining it is not their intention to bring out all union workers. The unions more directly connected with the city transportation are to answer the call.

Milk wagon drivers struck today and Organizer Cashell of their union declares that 6,000 will quit Wednesday if their demands are not met. The companies charge that strikers and strike sympathizers went through the streets intimidating drivers early today.

LONDONERS ARE FEELING SAFER

Believed Since Three German Aeroplanes Have Been Brought Down in as Many Weeks

SATURDAY'S RAID FAILURE

(By United Press.)

London, Sept. 25.—With three of Germany's biggest and latest types of German Zeppelins gone, brought down on English soil, within as many weeks, Britons today believed London is now more secure against air raids than ever before despite the fact that the last two raids were made with a greater number of aircraft than ever before used.

Military officials declare that the air defenses of London have stood the supreme test in repulsing the fleets of raiders which attacked the city on the night of September 2 and again Saturday night. The latest estimate puts the number of persons killed at 80. Over 110 were injured. Only three of the Zeppelins approached London for an attack and they were driven off.

MAYOR ISSUES PROCLAMATION

Directs Attention to Centennial Fire Prevention Day to be Observed October 9.

FIRE MARSHAL IS AT WORK

Seeks to Interest Every Agency in Celebration by Holding Special Programs

PROCLAMATION.

Oftentimes in the hurlyburly of business and routine affairs we forget that a little care and caution used in certain instances would prevent a hardship later, and while the hardship to some would be of no great consequence, to others it would prove disastrous. While Rushville and Rush county are participating in the state's one hundredth birthday and well knowing the great advancement made in this period, it is fitting and proper that our attention be directed for at least one day upon the thought of tomorrow—that of conserving our material resources through prevention of loss by fire.

The public should be greatly interested in any movement that would tend to eliminate fire loss, as the public eventually is the loser from fire. It is commonly known that a majority of fires are caused through carelessness and can be prevented. Prevention is always better than a cure.

NOW, THEREFORE, I CLATA L. BEBOUT, as Mayor of the City of Rushville do hereby designate

Monday, the 9th day of Oct., 1916

As:

Centennial Fire Prevention Day; and it is my earnest desire that it be fittingly observed. I would suggest that all property owners and tenants rid their premises of rubbish and other inflammable material; that hazardous conditions be reduced to a minimum. I also recommend that the public schools observe the day by holding proper exercises; that the coming generation may well know the meaning of fire prevention; and that all civic organizations realize the importance of the subject in order that all may reap the benefit of this doctrine.

In Witness Whereof, I have hereunto set my hand and caused to be fixed the seal of the City of Rushville, this 25th day of September, 1916.

(seal) CLATA L. BEBOUT, Mayor.

Mayor C. L. Bebout issued the proclamation setting aside Monday, October 9, as Centennial Fire Prevention Day, at the behest of the state fire marshal, who has requested mayors all over the state to issue such proclamations, and who is endeavoring to interest every person in Indiana in the special celebration. Governor Ralston has already designated October 9 as fire prevention day, in a special proclamation.

Each of more than 1,000 assistants of the State Fire Marshal scattered throughout Indiana is urging the people of his locality to observe the day by doing away with rubbish and other dangerous, inflammable conditions in the premises. Although the work of the Fire Marshal along these lines continues throughout the year the attention of the entire state is riveted only for one day on the problem.

It is the purpose of Centennial Fire Prevention Day to secure co-operation of civic associations, parents, teachers, children, business men, insurance societies and householders in taking steps which will materially reduce the number of fires caused through carelessness.

VOTING ON THE QUEEN STARTS

Ballot Boxes are Placed in Drug Stores, Only Place Where Votes May be Cast

SCHOOLS TO PARTICIPATE

Several Trustees Promise Their Township Will Have Float—Baby Parade Meeting

Ballots to vote on the Centennial Queen who will be crowned during the Centennial Home Coming and Fall Festival here were distributed among the business houses today and votes may be cast any time in the contest. Votes may be purchased at a fourth of a cent each, and many of the merchants will give them away, one with each cash purchase of twenty-five cents.

Votes may be cast only at drug stores. The sealed boxes to hold the votes were to be placed in the drug stores some time today and it is expected that a spirited contest will soon be aroused because here is fifty dollars in prizes involved.

A majority of the trustees at the court house Saturday afternoon agreed to see that their township was represented by a float in the Centennial parade on Friday, October 13. A fifty dollar loving cup, on which will be inscribed the name of the winning school, has been offered as the prize for the best float placed in the parade by the schools of any township or any building of the Rushville public schools.

A meeting of the committee on the baby and doll parade, which will be held Tuesday afternoon, October 10, together with others interested, was held in the court house Saturday afternoon and plans for the parade discussed. Another meeting will be held in the court house next Thursday afternoon at three o'clock and it is urgently requested that all mothers attend and hear of the plans for the parade.

"It is not so much the best decorated baby carriage, though there has been a prize offered for that," said a member of the committee today, "but what we want is to arouse the community spirit and get the mothers to take part. We want every mother in Rushville, or in Rush county for that matter, who can get here, to attend next Thursday afternoon and hear the plans for the parade."

Several unique costumes are reported to have been arranged by some Rushville mothers for the parade. It has been suggested that small boys who have freak outfits such as Indian suits and other make-ups of that nature participate in the parade.

The baby and doll parade has been a very rich success at several Centennial celebrations in Indiana already this year and there is no reason to believe that it can not be made a success here.

BANKER ASKS A RECEIVER

T. B. Millikan Sues Against Meat Shop Owner and Former Owner

Thomas B. Millikan, a Newcastle banker, filed suit today against Don M. Cassidy and Jesse L. Booth to foreclose a chattel mortgage, demanding \$670, and asking the court to appoint a receiver for the meat shop located at the corner of Second and Morgan streets. It is alleged that on Sept. 21, 1915 Booth gave his note to Cassidy for \$630 due in one year and bearing interest at the rate of six per cent. The complaint states that Cassidy sold the note to Millikan and then assigned him the mortgage. The foreclosure of the mortgage is asked and the plaintiff demands a receiver to look after the goods named in the mortgage.

TO BOOST FOR THE COUNTY CANDIDATES

Red Men of County Will Get Behind Miles S. Cox, Who Wants to be Keeper of Wampum

TO MEET TOMORROW NIGHT

The Red Men of the county will gather here tomorrow night in a general get-together meeting for the purpose of creating interest in the great council meeting scheduled for Indianapolis October 17 and 18. Miles S. Cox of the local lodge is a candidate for the office of great wampum and it is expected that plans will be devised at the meeting Tuesday night to boost his candidacy.

It is likely that members from this county will go to Indianapolis in a special car. While Mr. Cox has some opposition, the lodges in this county are going to get behind him and are confident that he can be elected. The meeting tomorrow night is scheduled for 7:30 o'clock and according to reports from over the county all of the lodges will be represented.

HORSE PLUNGES DOWN EMBANKMENT

Frightens at Big 4 Train on Track That Parallels Road and Dashes in Front of Engine

MRS. J. ALDRIDGE THROWN OUT

Mrs. James Aldridge, living northwest of Milroy, had a narrow escape from death or serious injury, Saturday evening in a runaway as she was driving into Milroy on the north road leading to the town, the one that parallels the Big Four railway for a distance. An approaching train in the rear of the horse caused the animal to run away.

The buggy was upset and Mrs. Aldridge thrown out, but she escaped with a few bruises. The horse continued his wild dash and at the point where the road crosses the tracks the animal, instead of keeping the road, started south along the track. When within a few feet of the big trestle the horse turned to one side and plunged down the steep embankment. For a time it appeared as though the train would run down the buggy containing Mrs. Aldridge, but it upset just before reaching the track. The horse was badly injured.

BEGINS 3-DAY TOUR OF OHIO

Republican Nominee Hughes Starts Oratorical Marathon With Speech at Dayton

HURTS VOICE IN INDIANA

Large Delegation From Here Attends Monster Rally in Indianapolis Saturday Night

(By United Press.)

Dayton, O., Sept. 25.—Republican Candidate Hughes brought his policies into the Buckeye state today, beginning a three-day oratorical marathon.

Because his throat is still inflamed and his vocal chords frayed by his long distance speaking in Indiana, Mrs. Hughes and the nominee's physician forbade any outdoor speeches here.

Hughes began the second week of his campaign tour in splendid physical and mental shape, but very much worn out in voice.

So far as punch is concerned, the former governor has come back to his highest efficiency as campaigner right now. But the super human effort he made at stumping in Indiana left his voice in such shape that it is an effort for him to speak.

Approximately a hundred Republicans from Rush county attended the rally in Indianapolis Saturday when Republican Candidate Hughes spoke. Most of the Republicans from here participated in the parade, which, in the opinion of Indianapolis people, was the biggest political demonstration in a generation.

It required an hour and thirty-five minutes for the parade to pass a given point. It was long after Hughes had concluded his speech in Tomlinson hall that the last of the parade drew up at the hall.

Arrangements had been made for an outdoor meeting in the court house yard across from Tomlinson hall and James E. Watson was selected to make the principal address; but try as he might, he could not go against the booming of cannon and the noise of brass bands and drum corps, not to mention the shouts of thousands of people. Other speakers, too, tried to make themselves heard, but found it impossible. Mr. Hughes was also to make a speech to the crowd in the court house yard, but his voice was badly worn and he merely appeared and begged to be excused, after his Tomlinson hall speech.

Mr. and Mrs. Hughes spent a quiet day at the home of Charles W. Fairbanks Sunday.

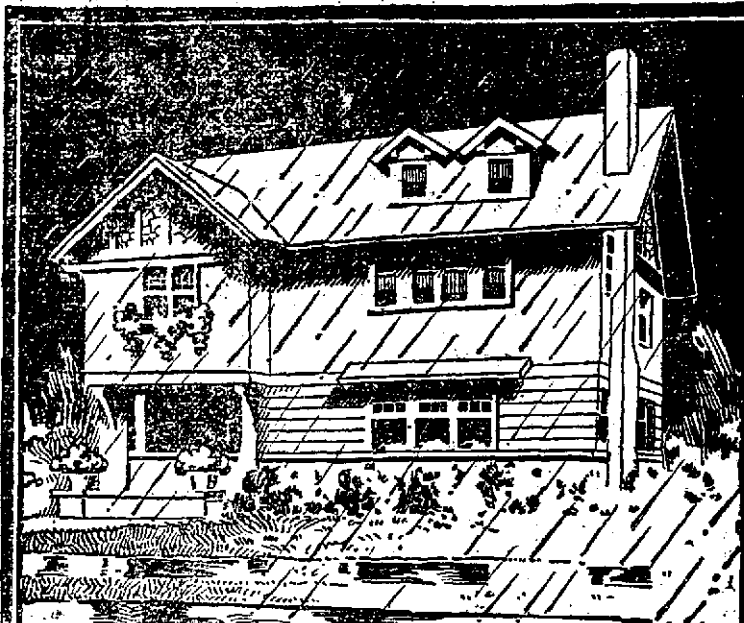

WILSON IS GIVEN MONSTER OVATION

President Urges Approval by Farmers and Shippers of His Business Legislation

HE SPEAKS AT BALTIMORE

The Lyric Theater, Baltimore, Sept. 25.—President Wilson today addressed to the farmers and shippers of the country an appeal for approval of the business legislation passed during his term of office. At a meeting held under the auspices of the National Grain Dealers association, he spoke to a crowd of 2,000 people who packed the Lyric.

From the time the president arrived here at 1:36 p. m. he was accorded a tremendous reception. The streets were lined with people and long before the hour arrived for his appearance, thousands were in front of the Lyric.

JACOB GAHIMER EXPIRES

Orange Township Farmer's Funeral is Held This Morning

Jacob Gahimer, 81 years old, a well known farmer of Orange township, died Saturday following an illness of several months from a complication of diseases, including dropsy and heart trouble. He had been a resident of Orange township all his life and was a wealthy land owner. He is survived by his widow and six children, Jacob and Louis Gahimer, Mrs. Jacob Coers, Mrs. August Coers, Mrs. Edward Rader and Miss Mary Gahimer. The funeral services were conducted this morning in the German church in Union township, Shelby county, by the Rev. S. Caldemeyer, and burial took place in the cemetery there.

PLENTY OF REASONS

Fort Wayne, Ind., Sept. 25.—Too much "girling;" too much time spent around pool rooms; dressing to please the adolescent female fancy; rich food and petting by doting mammas—those elements have combined to sap the red blood from the high school boys at Ft. Wayne with the result that the high school has no athletic team, according to Louis C. Ward, principal of the school.

"A diet of bacon and corn meal, less loafing with girls and pool rooms and interest in red-blooded pursuits, and athletics will pick up," he said.

WEARING "PANTS" IN EVANSVILLE.

Evansville, Ind., Sept. 25.—Evansville women are wearing trousers and the new adaptation is proving popular. No, they aren't wearing them on the street yet—only about the house and garden. They are overalls, made of cloth a bit lighter in shade than that for the men, and with a delicate dark stripe that pleases the gentler sex. And they're so comfy. One can get about so well in them. Stores here are now handling "ladies size" overalls and are selling lots of them.

HIS JOB TO SCARE GERMANS

London, Sept. 21.—Investigation today of the German charge that "black savages" were aiding the English in fighting on the Western front disclosed that one very large black, fierce looking "savage," a British citizen hailing from London, was instructed to put his woolly head over the parapet twenty times a day in twenty different places for twenty days, yelling on each occasion "Hoola Boola," or something like that. Naturally the Germans thought they were opposing a horde of savages. And all the time the horde was scared stiff that he was going to get his head shot off.

TODAY'S HOOSIER ODDITY

(By United Press.) Indianapolis, Ind., Sept. 25.—Men in Indianapolis have no right to repair or do plumbing in their own homes. Under the new contract with the Indianapolis Water Company no one may meddle with the plumbing but a regular plumber, licensed both by the city and the company. Republicans in the city council are attacking as unfair this provision of a contract made during the administration of Mayor Bell, democrat.

WORLD'S EXPORT RECORD

(By United Press.)

Washington, Sept. 25.—A world's record for exports were set by the country during the month of August the department of commerce announced today. Exports totaled \$510,000,000. This is \$35,000,000 more than the previous record established in May.

Imports decreased \$47,000,000 under June when a high record was set. August was the first month in which the United States has sent exports totalling more than a half a billion.

Another Reunion

The voters of Illinois in the primary election last Wednesday added their state to the rapidly growing list of those which have shown by actual voting a complete reunion of the Republican and Progressive forces. The vote for Republican candidates, both in Chicago and down state, was by far the most impressive feature of the election.

In the City of Chicago the Republican vote was practically what it was before the 1912 break in the party ranks, while the total Democratic vote fell off nearly 40,000. The 1912 Democratic total vote was 158,853 while that of last Wednesday was 119,422. The down state vote made a similar showing.

The totals were so impressively favorable to the Republican cause this year that even the Chicago Examiner, a Democratic paper and champion of Gov. Dunne's renomination on the Democratic ticket, remarked:

"Political statisticians hold the figures to indicate that the progressives again are sitting in the game with the Republicans."

Col. Frank B. Lowden, the Republican nominee for governor, won the nomination in such emphatic fashion that his opponents in the

primary were among the very first to send him congratulations and assure him of their warm support in the campaign for election. Illinois Republicans never were in better shape than now for a clean cut campaign for election of the state and national tickets. Not a vestige of factional difference is left to mar the campaign.

On the other hand, the Democrats had an eleventh-hour effort to made to defeat the renomination of Gov. Dunne, a fight that has left considerable bitterness in the state ranks of the party. As a result it is being predicted in political circles through the state that Illinois will return a Republican plurality for the national and state tickets in November of 200,000.

Primary election returns from Colorado and Washington show that practically the entire Progressive vote in those western states were cast last Tuesday for the regular Republican candidates.

The returns from Michigan, Ohio, Wisconsin, and other middle-western states recently showed the Progressives voting almost solidly with the Republicans. The same thing was shown in the Illinois primary of Wednesday.

That the Republican party is reunited all over the country is shown conclusively by these returns. Furthermore, in almost every state record votes are being cast. With a harmonized party whose members are going to the polls in record numbers to cast their votes, Republicans can read only certain victory in the coming November election.

It was but a comparatively few years ago when the whole country was talking of the "billion dollar congress." Now a "two billion-dollar congress" has just closed and but little is heard of the enormous expenditures. From this it would seem that money is so plentiful in the United States that even the colossal sum of two billion dollars is viewed with indifference.

We haven't a shadow of a doubt but that the agreement ultimately reached between the American and Mexican commissioners will go into history as just another "scrap of paper."

The average man never realizes the true worth of a good wife until he gets into it clear up to his neck.

POPULAR WITH OFFICERS
El Paso, Tex., Sept. 23.—When the Kentucky militia regiments arrived at the border nearly every officer carried a "swagger stick" a short straight wooden wand as is affected by officers of the British army. Regular army officers were disposed to smile and regard the fashion as a "militia affectation." But it added a touch of the picturesque to the officers and Colonel Allan Gullion of the Kentucky National guard, who is responsible for the innovation, defends it.

"The swagger stick not only adds the distinctive touch to the officer, which our army lacks, but it aids in maintaining a military bearing. When carrying some object in the hand, unconsciously the officer will throw his shoulders back and walk erect." Half of the officers on the border now have adopted the "swagger stick."

ESTATE HOT STORM

The Stove with a Little Furnace In It

Competent authorities tell us that in the ordinary heating stove 50 to 75 per cent of all heat generated from the coal goes up the chimney—a dead waste of heat and of money. For years designers have been trying to lessen this waste and the result of their labors is shown in the ESTATE HOT STORM—not a stove in the common sense of the word, but a COMBINATION STOVE and FURNACE—two heating systems in one. Costs very little more than the ordinary stove to buy, no more to install and much less to operate than the ordinary furnace.

Come and see how the "Little Furnace" blocks up rushing heat and sends it pouring out the top INTO the room—not up the chimney. See the JOINTLESS LEG BOTTOM and BASE—as good a fire keeper in twenty years as it is today. The low bottom, from two to three inches closer to the floor than any other make. Absolute cleanliness, everything in the fuel consumed except the rock and slate in the coal. The indestructible HOT BLAST system—no rings to burn out or fill with ashes.

We can conscientiously guarantee to produce more heat for less money than any soft coal heater in the world.

MAYOR ISSUES PROCLAMATION

Continued from Page 1.
by the State Superintendent of Public Instruction to secure state-wide observance of the day in the schools of Indiana. In a letter addressed to the school superintendents, State Superintendent Great-house urges that exercises be held in all schools on October 9th, in which the subject of fire prevention will be studied and recommends that all English classes make fire prevention purposes and methods the subject of their compositions and themes during the week beginning October 9th.

The State of Indiana has originated a method of study of fire prevention in the schools which has been copied by fire marshals and fire prevention experts in all parts of the United States. This system involves requiring each school pupil to make an inspection of his own home with a view to discovering all dangerous conditions which may cause fires. Each student makes a written report of his inspection and returns the result to the school authorities. A number of school principals have gathered interesting statistics on their cities by tabulating the result of the several inspections. Blanks for the purpose of making these inspections are furnished by the State Fire Marshal for distribution to the school children, free of charge on request from school authorities.

An effort is being made to have public meetings held on October 9th in all communities, at which the subject of fire prevention will be discussed and measures to protect property from fire will be taken up for settlement. Many requests have been received by the Fire Marshal for suggestions as to what should constitute programs for school exercises, business and commercial meetings. By this method it is expected that the State of Indiana will in all its sections give attention on October 9th to the fire prevention problem and that carefulness resulting from that attention will have a material effect in reducing the Indiana fire loss in coming years.

You will find, in all probability, an accumulation of tartar on the enamel and bits of food deposit hiding between the crevices. YOUR DENTIFRICE does not FULLY CLEAN! Loss of teeth is caused usually by one of two conditions—Pyorrhea or decay, both of which develop, as a rule, only in the mouth where germ-laden tartar is present.

SENRECO, the recently discovered formula of a dental specialist, is two-fold in its action. First, it REALLY CLEANS, embodying specially prepared, soluble granules unusually effective in cleaning away food deposits. Second, it is particularly destructive to the germ of Pyorrhea. Yet it is perfectly safe, containing neither injurious chemicals nor hard grit.

Avoid Pyorrhea and decay. Get Senreco from your dealer today. In large tubes, 25c. Send 4c to Senreco, 304 Walnut Street, Cincinnati, Ohio, for liberal-sized trial package.

BARBER-DUNN

A very impressive wedding ceremony was performed Saturday afternoon, at the home of Mr. and Mrs. D. D. Barber of Andersonville, when their daughter, Miss Amory Barber, became the bride of Lawrence Dunn, son of Mr. and Mrs. George Dunn. The ceremony was performed at 3:30 o'clock by the Rev. Moody Edwards who used the ring ceremony. The bride was accompanied by her sister as maid of honor, Miss Beryl Barber, who wore a filmy gown of pale blue with a lace and net overdrap. The Mendelssohn wedding march was played by Miss Ruby Stewart who was attractively gowned in a light blue silk, made partially with georgette crepe. The bride never looked lovelier. Her wedding dress was a silk net over taffeta, beaded with beautiful ornaments. The bridegroom was accompanied by the best man, his cousin, Alden Griner.

The color scheme of the wedding, pink and white, was carried out in the decorations. A profusion of flowers gave a lovely setting for the scene. An informal reception followed the ceremony. Refreshments carrying out the pink and white suggestion were served to the forty or more guests.

Yesterday in honor of the bridal couple, Mr. and Mrs. George Dunn, the parents of the bridegroom, entertained at their country home. The young couple will go to housekeeping on a farm near Andersonville. The bride was formerly a teacher in Franklin county and is a very capable and attractive young lady.

INDIVIDUAL TOUCH IS EASY.

At this time of the year many attractive articles of dress are being offered at bargain prices. One hesitates to buy, because the table on which they are displayed holds so many models of the same description. There is something unpleasant about meeting your frock or blouse on another person as you walk along the street or when you attend a social function. However, there is a way to take advantage of the reduced prices and yet have something a little different from the rest. This way refers to hand embroidery.

If you are original you can use leftover threads and silks and embroider very attractive designs on the collar, cuffs, pockets or any available place. If you cannot originate you can surely find the type of design you want in any needlework book or newspaper printing embroidery designs.

Now that, applique work is so much in vogue, one has another method of adding an additional touch to a ready made frock. Odd designs cut out from contrasting colored material can be neatly attached to many of the bought summer frocks and thus transform their appearance.

A marriage license was issued Saturday afternoon to Harry N. Snyder and Ruth Marie Parish, both of Carthage.

Amusements

The Gem offers the feature picture "Undine" for the program tonight. How Undine is accepted by a fisherman and his wife for their daughter who has been stolen by the mermaids, in revenge, because the fisherman robs the sea of its finny inhabitants; how she is loved and married by the brave knight Huldbrand, taken to his castle, and then, her mission on earth fulfilled, she is ordered back to the fairy realm whence she came—that in brief is the story of "Undine." It is a massive and spectacular play featuring Ida Schuall.
A play as sweet, as powerful and as heart interesting as "Way Down East" will be shown at the Princess tonight when "Tangled Fates," the latest World film will be shown. Alice Brady, who rendered such excellent dramatic interpretations in "As Ye Sow," "The Ballet Girl" and others, plays the leading part. Tomorrow the three act drama "The Duke" will be shown in which Frank Mayo and Lillian West are featured.

THOUSANDS PLEAD BOY'S LIFE BE SAVED

Little Willie Zimmer, Age 12, Will
Not Have to Stand Trial for
Killing His Mother

TO BE GIVEN CHANCE AGAIN

New Orleans, Sept. 25.—Little Willie Zimmer, age 12 years, who shot his mother to death here will not be tried for murder. The district attorney said today the boy would not be tried for life. Pleas of thousands of youngsters and club women in nearly every state in the union has had its effect and Willie will be given a chance to begin life all over again.

Willie killed his mother because she tried to beat him. On the day of the killing he had been with his father. The father thrashed him for some trivial offense, so Willie went to his mother for comfort. But Mrs. Zimmer was in no comforting mood. Willie offended her and when she raised a stick at him, he shot her dead.

WOULD DO AWAY WITH SECRECY

Senator Paul Husting of Wisconsin
Sees no Reason For Keeping
Income Tax Records Dark.

THINKS PUBLIC SHOULD KNOW

Goes on Theory That Every Tax
Payer Has Right to Know
What Every Other Pays

BY PAUL O. HUSTING.

(Written for United Press.)

In my judgment, no valid argument has ever yet been advanced why income tax records should not be published or at least open to the public for inspection.

If certain individuals evade or escape, in whole or in part, their proper tax, just to that extent, the amount so evaded has to be made good by those who make full and honest returns of their property. Every taxpayer has a right to know what every other taxpayer pays.

Men will dodge taxes. I do not think this due so much to inherent dishonesty as to inefficient administration of the tax laws.

I believe most men are willing to pay their taxes if assured that their fellow citizens pay theirs.

Because of imperfect, loose and frequently dishonest assessment to engage in a practice acquiesced in if not sanctioned by the authorities, it is not unusual for men, to dodge their taxes.

Often it is considered clever for men to get the best of their neighbors in concealing property. Men boast about it and a sort of rivalry has sprung up between them on the point.

They do not stop to think that they are cheating their fellow citizens who do pay their just taxes. They do not stop to think that they are "welchers" or "spongers" on society. Some of these men who ordinarily would spurn the idea of sponging off their fellows or cheating their partners.

Some one has estimated that this government loses annually \$300,000,000 by income tax dodging. This may be a very high estimate. I do not know. I do know that millions of dollars of property payable

RUSHVILLE, INDIANA
"The Home For Savings"

taxes under the income tax law are lost to the United States each year because of false returns. A corps of inspectors uncovering these tax evasions have added millions to the tax receipts.

The ban of secrecy should be removed and all these records exposed to the light of day. Men will not evade their taxes if they fear detection. The loudest protest against publicity naturally comes from those liable to pay the heaviest tax. Not daring to attack the income tax principle they loudly inveigh against intrusion into their private affairs.

When such income constitutes the basis upon which their just tax is computed then their tax return becomes a public document. If it should be shown that the injury to private business by reason of publicity incidental to the assessment and collection of the income tax is out of all proportion to the benefits derived from that sort of taxation, the tax should be abolished, but so long as it is in force all steps necessary to the proper administration of that income tax law should be taken, even though in exceptional cases it may cause trouble or inconvenience. Publicity is the most efficient hand-maiden of such administration.

ALL HONOR LOWLY BEAN

St. Paul, Minn., Sept. 25.—The lowly bean was honored today when peered into, dissected and analyzed by a lot of highbrow and be-whiskered food experts working for the State Board of Control.

The board has to feed all the patients and beans, once \$2.50 a bushel, now sell for about \$7.50. The state board wants to know what's in the bean and what could be used as a suitable substitute.

ROBBINS IN INDIANA.

Terre Haute, Ind., Sept. 25.—Raymond Robbins, the progressive orator of Illinois, who has taken up the battle for Charles E. Hughes, will speak here at a republican rally tonight. Republicans today were putting the finishing touches to plans for the meeting, which they believe will go far toward bringing recalcitrant progressives to the G. O. P. candidate.

CONTRACTS AWARDED

The county commissioners, in session Saturday afternoon, awarded contracts for poor farm supplies as follows: Bliss and Cowing, clothing; Weeks Fresh Meat and Provision Company, meats; Callaghan Co., dry goods; B. A. Black, groceries.

Robert L. Tompkins, as administrator of the estate of the late John W. Tompkins has filed suit on a note against William E. Pitman, demanding \$150. He has also filed a suit on a note against William E. Pitman and Ralph Pitman, demanding \$175.

Buy Advertised Brands — They're Best
"Trade-marked" articles—things sold by NAME or DISTINGUISHING and IDENTIFYING BRANDS—must be kept at the highest standard of quality. The VALUE must never vary. For a maker to "cheaper" such an article would be to throw away the prestige he had fought so hard, and advertised so effectively, to gain.
